

Instructions for Use
EP-840
 Stretch Film Dispensers

1.

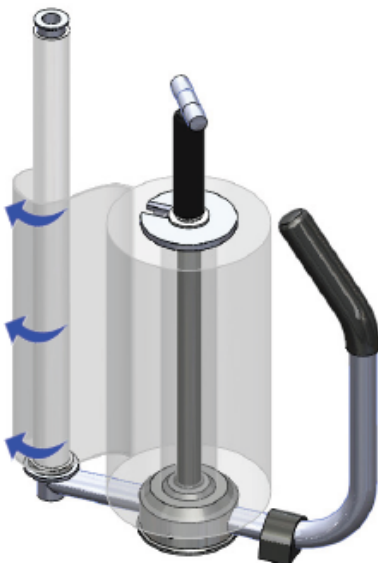

Place stretch film roll on the **base**. Insert **top** and **handle** to keep roll in place.

2.

Twist **handle** to tension stretch film.

3.

Pull out stretch film around **stretch arm** to desired length and **wrap** around load.

4.

To **switch out** stretch film, **unscrew handle** and **remove top**. Stretch film should **slide out over the handle**.
